

Question	Response	From
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	a also regenerative their agriculture	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	healthy need meat insulate also like could public or	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	less could public need and	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	energy	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	energy fraud earth	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	nations of	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	less use consuming less	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	reducing	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	eat support nations ban walnuts using affordable harness cannot are transport habits not use cars changing travel the eating less	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	that developing the recycle reduce yes no plastic for you can our of improve commercial waste power	Wall
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	regenerative agriculture	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	the power is in the purse	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	walking	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	have less kids	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	better but also involve exploitation of human rights in the mining industry in order to get the lithium and cobalt needed for electric batteries	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	eat less meat	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	buy what we need and buy sustainably	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	turn off appliances after using them	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	take public transport instead of driving	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	no flying	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	but less, use less, waste less	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	stop consuming beef and dairy	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	easy less/stop eating meat	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	maybe not buy a car for each person of the family. and try to use public transport most. or use a bicycle for nearby places.	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	flora is the best	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	buy less meat	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	walk	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	walking and cycling	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	reduce use of fossil fuels	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	investing in oceanic energy	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	consume less of everything	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	walking and cycling, and then	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	reduce consumption	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	reduce consumption	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	drive diesel cars	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	stop fast fashion!	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	lobby politicians to heavily tax the rich 1%. they are responsible for most of the damage. stop asking about individual actions	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	eat less meat	App

What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	use non-polluting energy vehicles	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	eat rich people	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	reduce wasteful consumerism	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	flora is the best	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	using public transport or cycling over a vehicle of your own at every opportunity - ideally not owning a car at all	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	work from home more	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	electric cars are good, 😊	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	reduce fossil fueled travel	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	a carbon tax	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	changing eating habits	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	eat less meat	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	lifestyle change	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	use less oil	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	what they eat, their transport and consumption habits.	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	type of transportation	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	tax the rich	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	changing energy providers and using less carbon intensive transport options	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	do not support evil tncs such as shell because they have no respect for the farmers in nigeria or our overheating planet :(	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	engineers	App
What do you believe is the biggest change in lifestyle people can make to reduce their carbon footprint?	less meat and stop asking me questions!	App
How much do you think sea levels have risen since 1900?	fifteen hundred metres maybe it IS stressful	Wall
